

The Michigan Society of Histotechnologists offers two workbooks to aid the student in their studies to attain the HT/HTL (ASCP), and for the histotechnologist the QIHC (ASCP) certification. Additionally for the supervisors, a Competency Assessment Manual that offers different styles of templates to conform to each laboratory are unique needs. You can purchase these items by using the form below or online at: www.mihisto.org

HT/HTL Study Workbook.....\$25.00/copy

This workbook is an expansion of the “ASCP Board of Registry HT & HTL Examination Content Guideline.” The purpose of this expanded HT/HTL study workbook is to provide a guide enabling the student to prepare for the HT or HTL (ASCP) registry examinations. Effort has been made to include all aspects of the theory and knowledge required for the examinations.

QIHC Study Guide Workbook.....\$20.00/copy

The purpose of this workbook is to help prepare the HT or HTL for the QIHC (ASCP) certification exam. Just released, this workbook includes all the information that could be on the test starting with how to determine your eligibility, reading list, basic immunology, and all the different steps to attain IHC staining, troubleshooting, and ending with lab operations.
